OBJECTIVE

Enthusiastic and digital-oriented MCA graduate with strong skills in computer applications, seeking opportunities to join a company where I can utilize and enhance my technical skills and interpersonal skills to serve the organization.

PROJECTS

GESTURE GLIDE

https://github.com/lakshmiprabhakar/GESTURE_GLIDE_.git February 2024 - April 2024

- Gesture Glide is a self-created virtual mouse controlled by hand gestures.
- Using Open CV for image processing and Media Pipe's machine learning to detect and track hand landmarks., it accurately recognizes hand movements and converts them into mouse actions like clicking, dragging, and scrolling.

TASTE QUEST

https://github.com/lakshmiprabhakar/taste_quest October 2023 - December 2023

- Taste Quest is a web-based platform that simplifies restaurant management and customer dining experiences
- It allows customers to effortlessly book tables and order a diverse range of food items.
- Restaurant owners can efficiently manage their menus by adding new dishes.
